Topic: Roofing Materials

Date: June 3, 2013; July 2014

Pyramid Roofing is a roofing company that serves this region of Virginia and is the company that did the roofing work in our neighborhood. According to Ricky Higgins, Roofing Specialist, there are **three different roof colors** in our neighborhood: **Most** of the roofs in the neighborhood are **GAF HD Weathered Wood**, which has a brown tint. **Some** roofs are **Certain Teed Weathered Wood**, which has brown and some pastel blue in the color. **One house** (201 Brookwood Drive) has **CertainTeed Georgetown Gray** and is likely the only home with this shade of shingle.

Needless to say, *before roof repairs occur*, verify your type and color of roofing shingle with your contractor **and submit the required form to the ARB** prior to commencing work on your roof. If you follow these steps, you and your neighbors will be happy with the outcome.

This information on roofs was provided Ricky Higgins at **Pyramid Roofing (757) 258-3595** or www.pyramidroofing.com
